

Vendor Opportunities at the Shared Use Path Landings

March 2023

Thank you for your interest in the Governor Mario M. Cuomo Bridge Shared Use Path (“the Path”). Since opening in June 2020, more than 500,000 cyclists and pedestrians have visited the Path, which features six scenic overlooks and offers an exciting and unique recreational experience. Public amenities at either end include restrooms, parking and public art.

The New York State Thruway Authority (NYSTA) is inviting qualified local vendors to provide high quality, quick service food and/or non-alcoholic beverage offerings (e.g. hot dog/ice cream/coffee) and bicycle rental services at the Westchester and Rockland Landings **as early as April 22, 2023 and through October 29, 2023.**

Your proposal should include:

- Nature of your proposed business, including detailed list of variety of products and/or services being offered.
- Proposed landing(s)/overlook, amount of space needed for the size of the operation and staffing model.
- Detailed business background, experience, at least two references with contact information.
- Services must be provided at a minimum on the weekends (Saturday & Sunday). Peak Path traffic occurs on average between 9 am and 3 pm daily (approximately 1,000 visitors per weekend day).

Please note:

- Only proposals that are submitted by the listed deadline will be considered.
- Sending a proposal does not guarantee acceptance into the program.
- Preference will be given to local vendors and approved participants of the Taste NY program through the NYS Dept. of Agriculture & Markets.
- If selected, vendors will need a NYS Thruway Authority seasonal permit and a fee may be required.
- All food, beverages and merchandise selling operations must conform in all respects to federal, state and municipal laws, ordinances, rules and regulations.
- A selection committee will evaluate each vendor proposal using the following criteria:
 1. The quality and thoroughness of the proposal response.
 2. Demonstrated expertise and experience in the industry, and ability to set up and open the desired food service operation in a reasonable time frame.
 3. Responsiveness of proposed weekly schedule, hours of operation and scope of service to be provided.
 4. Responsiveness to the anticipated needs and expectations of the perceived customer base.
 5. Reference validation.

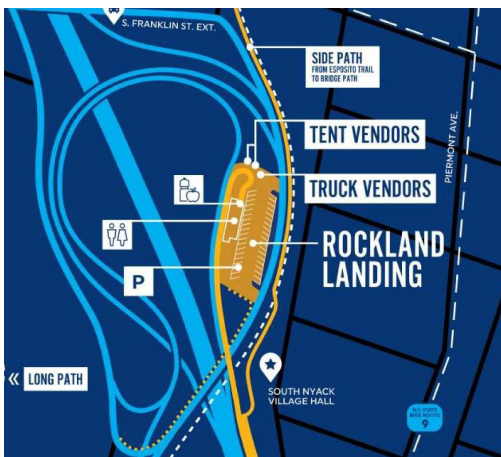

Proposals are due no later than April 7, 2023. Please email proposals and any questions to: gmmcbinfo@thruway.ny.gov.
